

## Testimonial from “A Better Yard Care”

Over five years ago I began asking myself what it was that I needed to get out of poverty. What was it that other people had that I was lacking? After much thought, it came to me. It was a small business.

I found the Small Business Development Center and began asking questions. I sat down with an organizational consultant. I created a business plan with manageable goals. I made arrangements to have Quick Books computer program so that I could maintain my business books. With guiding help from the staff at SBDC, “A Better Yard Care” was born.

It has been five years now and I am no longer living in poverty. I have the best landscape maintenance business in the two towns! I believe my dreams have come true due to my hard work, God, and the tools and focus given to me by the SBDC. If it wasn't for the staff of the SBDC, I wouldn't have successfully realized my dream. Thank you SBDC!

Sincerely,

*Cassandra Hoon*
